

# DANA WEST YACHT CLUB

## 2020 Candidates

**BRUCE BELANGER #3249**

My wife, Kathy and I moved to San Clemente 20 years ago and became members of Dana West Yacht Club in 2016. We have been active in the Club from the time we were approved.

With the sad death of Barbara Moran, I was appointed to take her place as Director. I have been involved with many improvements, maintenance, and repairs as needed in the Club. It is wonderful to be in the family of Dana West Yacht Club and be a part of all the activities that are ongoing.

I have truly enjoyed working with the current Board Members and Staff Commodores. With your support, I would like to continue to do so. Thanks for your consideration.

**RICH BLANCO #3276**

This past year I was the Fleet Captain, and while it was a tough year for all, cruising was certainly a challenge! However, we started slow but finished strong once restrictions were relaxed! To make up for not being able to cruise outside the harbor, we created a Champagne Campaign where registered boaters picked up a bottle of champagne to enjoy on their boat. Memorial Day we had a DWYC Dinghy Rally with 36 decorated dinghies and participants! Isthmus was great! We finally are holding our Raft-up with the Dana West Youth Sailing Club and will have a great turn-out in Avalon. This past year has afforded us many opportunities to get to know more club members, and the inner workings of the club.

Employed in multiple managerial positions during my 20-year tenure at the Orange County Register I interacted with all departments, overseeing all budget responsibilities of the production department. As General Manager, I established a commercial printing division which grew incremental revenues of \$3 million annually.

This experience gave me the desire to become an entrepreneur, creating RMB Printing & Promotions, and have successfully provided printing and promotional services to many businesses for the past 21 years, including DWYC.

As a member of DWYC for the past 4 years, I appreciate the camaraderie and inclusion this club provides and would be honored to continue to share my expertise and ideas as a board
