

MEGAN NOYES #3333

My husband and I joined the yacht club a couple of years ago. Although, it hasn't been a very long time, it has become home away from home. We frequent the club a couple of times of week. We enjoy the delicious food and setting and bring friends often. We have enjoyed many events and feel so at ease at the club. We have met many friends, whom we now think of as family.

My husband is a LACOFD firefighter and is currently fighting the wildfires. We have been married for over 20 years and have four kids. Our son Jack is 16 and plays water polo. Our daughter Kaity is 15, plays volleyball and is super excited that she just got her learners permit, (as am I)! Ally is 11, loves to dance and our littlest, Connor, is 10 years old and loves football. I am a criminal defense attorney and child advocate. I have been in this position for 13 years now and love it!

We have a 33-foot Regal day cruiser in Dana West. We love to cruise to Catalina and San Diego and last year my husband and I traveled to BVI and cruised the islands in a 45-foot power catamaran, just the two of us!

I believe I would be a good candidate for fleet captain because I am very organized and have good skills to work with other yacht clubs in order to put the interests of our club at the forefront. I also love a good, fun event and look forward to being able to put together some great events that we all have been missing and longing for during this difficult time with coronavirus. I am interested in going up the flags and while having a great time is important, I understand that the club is a business and must be well managed. I believe my legal background and being a boat owner would prove beneficial for these crucial tasks.

LEIGH ANN PACK #3200

Hello, my name is Leigh Ann Pack; I started my business eighteen years ago and have established an environment where children thrive. I feel my educational background and business experience will continue to serve me well as one of your DWYC directors. I am dedicated and committed to giving 100%.
